Bucharest

07.2023 – 09.2023 10.2021 – Present

SOFTWARE DEVELOPER INTERNSHIP

London Stock Exchange Group (LSEG)

- Rapidly acquired proficiency in Spring framework.
- Collaborated in a three-person team on a full-stack project for stock and market management.
- Participated in diverse training sessions covering React, Angular, Spring, SQL, and DevOps.
- Managed project tasks efficiently using Jira.
- This activity helped me achieve a better time-management, successfully juggling the needs of 10+ clients over timeframes as short as 3 days.
- Successfully scraped data for 5+ clients, resulting in over 50,000 data points collected.
- Efficiently entered data for 20+ clients, resulting in the successful processing of over 10,000 data points.

REVIEWER

National Institute of Statistics - Romania

- Conducted field research by visiting households to gather population data.
- Successfully collected data from over 500 households.
- Proven ability to work independently and as part of a team.

PERSONAL PORTFOLIO

- Description: Developed a dynamic and responsive web portfolio aimed at showcasing personal projects and skills.
 - Role: Full-stack developer, responsible for both front-end and back-end implementation.
 - Technologies Used: React, TailwindCSS, Node.js, Vite, Git.
- 06.2022 – 08.2022

Personal Projects

- Outcome: Improved web development skills, with a focus on modern design principles (responsive design, SEO optimization, and accessibility).

JOB BOARD

- Description: Built a job board website as part of the "Google Atelierul Digital Programare" initiative to enable job listings and applications.
- Role: Lead developer, designing the user interface and implementing backend functionality.
- Technologies Used: Django, HTML, CSS (TailwindCSS), Django ORM.
- Outcome: Successfully implemented a full CRUD system (Create, Read, Update, Delete) for job postings, gaining experience with database interactions and improving UI/UX design.

GO GREEN HACKATHON

- Description: Developed an interactive online game for children to promote recycling awareness, including an educational page.
- Role: Front-end developer, responsible for game logic and website interface.
- Technologies Used: JavaScript, HTML, CSS.
- Outcome: Achieved proficiency in JS and front-end technologies in a short time; improved teamwork and presentation skills, leading to a high score in the hackathon.
